PROFESSIONAL SUMMARY

Motivated and passionate Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js), with hands-on experience building end-to-end, scalable, and high-performance web applications. Skilled in designing and developing responsive front-end interfaces and robust back-end systems, often enhanced with real-time features. Proficient in database design with MySQL and MongoDB, and experienced in delivering user-centric solutions through personal and academic projects. Eager to contribute to fast-paced development teams, continuously learn new technologies, and turn ideas into impactful, working products.

EDUCATION

Techno India University

B.Tech (L) Biotechnology; CGPA: 8.90

Calcutta University

Bachelor of Science (HONORS) - Chemistry; CGPA: 7.4

Kolkata, India

September 2021 - Aug 2024

Kolkata, India

June 2018 - August 2021

SKILLS SUMMARY

Languages: Python, JavaScript.

Frontend: React.js, TailwindCSS, Context API, HTML5, CSS3.
Backend: Node.js, Express.js, JWT, RESTful APIs, Socket.io

Database: MongoDB, MySQL

• Tools: Git, GitHub, Postman, VS Code

• Soft Skills: Communication, Collaboration, Stakeholder Management, Problem Solving, Leadership.

PROJECTS

URL Shortener Web Application | LINK

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT.

- Built a full-stack URL shortener that reduced lengthy URLs by up to 85%, improving link sharing efficiency and user experience.
- Secured user routes with **JWT-based authentication**, protecting **95% of endpoints** and improving system reliability.
- Optimized backend APIs, reducing response time and improving scalability.
- Can generate over **4Trillion** short, unique, and collision-resistant URLs, ensuring **safe and consistent identifier generation** across the application.
- Also featured track visits and usage analytics.

Al Trip Planner - Al Travel Planner with Smart Itineraries| LINK

Tech Stack: React.js, Node.js, Express, MongoDB, Gemini API, Google Maps API, Tailwind CSS

- Al Trip Planner is a smart travel planner to create personalized trips and live route planning for a better travel experience.
- Developed a mobile-friendly Al Trip Planner offering dynamic, real-time itinerary generation with smart suggestions for routes, attractions, and optimized travel plans.
- Integrated Gemini AI for instant conversational replies (average response <500ms).
- Designed and implemented a secure client-server architecture with REST APIs, supporting CRUD operations on trips and destinations.

Personal Portfolio LINK

Tech Stack: React.js, Vite, Tailwind CSS.

- Built a responsive developer portfolio using React + Vite + Tailwind CSS.
- Showcased personal projects, technical skills, and social links with a clean, modern UI using component-based architecture for reusability and scalability.
- Integrated Particle.js animated background and interactive Hero section, enhancing user engagement by providing dynamic visual experience.
- achieving a Lighthouse accessibility score of 88.

HOBBIES

Playing Cricket, Traveling and Photography
